Munich Olympic Tower with Kathrein satellite antennas on side and a Kathrein DVB-T antenna on the top. Photo made while mounting the DVB-T antenna in 2005 by helicopter.

CAS 180 | 1.8m Professional SAT Antenna

CAS 180 is designed to withstand high winds, minimize rain fade and improve signal strength and quality.

Made with low-weight, high-durable, powder coated aluminium, CAS 180 is available with a wide variety of Ku-band feeds and heating options to prevent ice and snow on the reflector surface.

Applications:
Broadcast, VSAT, Hospitality

Professional LNB Range for Highest Reliability

UAS 571

Universal single feed system

10.70-12.75 GHz | 1 switchable output

UAS 572

Universal twin feed system

10.70-12.75 GHz | 2 switchable output

UAS 684

Universal quattro feed system

10.70-12.75 GHz | 4 outputs (VL, HL, VH, HH)

UAS 582

Wide band feed system

10.70-12.75 GHz | 2 wide band outputs

Mounting Accessories

The Kathrein mounting accessories include everything you need for mounting your SAT system – from the rafter and wall bracket (steel or aluminium) to the flat roof stand, we have everything in our product range ... including mounting sets, of course.

- Mast: Tubes, Extenders, Spacers, Clamps
- Wall Supports
- LNB Holders, DiSEqC Switches
- Azimuth/Elevation clamps
- Reflector Heating Systems
- Flat Roof Stands
- Earthing accessories

PARTNER BENEFITS

Support & Promotion

- Technical trainings tailored per your needs
- Pre-Sales and installation support
- Project protection and lead generation
- Being listed as KDS distributor on company web site
- Access to KDS database for marketing materials
- Joint local events

Technical & Commercial

- Long term support and warranty - made in Germany systems!
- Flexibility with a wide range of products – end to end solution
- Low power consumption and technician friendly hardwares.
- Always ahead of the market with next generation technologies
- Ready stocks
- Leading performance/price ratio!
